

Lady

March 17, 2026

Lady was an amazing dog. I rescued her from a shelter in 2019. She was mostly trained but very tame and well mannered. We moved here to West Virginia in 2023 from California. She was amazing on the very long drive across the country. All she needed was room to run and a ball to be thrown. Like all big dogs, she was not aware of her size and would climb into your lap or lean against you and almost knock you over. She also played soccer by herself. You throw the ball and she takes off after it. Before grabbing it and running around she would kick it around like she was playing "keep away" lol. We love her so much and will miss her deeply. It's true what they say, "a shelter dog will change your life!" She was amazing in every way.
