

Sawyer

December 31, 2025

Sawyer was born on September 16, 2009. We said goodbye to him on December 31, 2025. He was the most loyal and energetic of his pack, and the most adventurous of his litter. He was the first one to jump out of his basket as a puppy, and the last one to join everyone in Heaven. Waiting for him in Heaven was his biological mom & dad, Buddy and Zoey; his litter mate Jolly; his biological sister, Gracie; his pack brother, Hurley; and his pack sisters, Juliette and Chloe. Missing him on earth is his pack brother, Leo; his human mom, dad, sister, and gran, and a host of other humans who loved him. Sawyer loved licking things, playing with children, and lying quietly by his mom's leg on the couch. He was instinctively loyal, following his mom everywhere right up until the day he said goodbye. He loved to celebrate his family coming home by jumping up & down on his hind legs then running to grab his favorite toy and bringing it to them. He loved life and loved everyone he met. Even though we will miss him forever, we are thankful that his goodbye was peaceful. We know he is no longer confused or anxious. We feel a sense of peace as we imagine him spending his days running through beautiful fields, and playing with all of his fur siblings and pack members. We look forward to him welcoming us into Heaven one day, running up to us holding one of his favorite toys. Until we meet again, sweet Sawyer. We love you.
